- Engineered to work with hydraulic feet

trailer behind the truck at all times; the

SUPERIOR VERSATILITY

XL Jeeps are designed to make your trailer more versatile. The ability to use the jeep in front of your trailer when needed to distribute the weight of the load, but remove when unnecessary makes you able to handle a wider range of loads.

HYDRAULIC HATBOX OPTION

The XL hydraulic hatbox allows the user to raise and lower the trailer to clear obstructions when preparing for heavy hauling trips. XL's hatbox aids in steering and stability, helping the trailer pivot or articulate in response to the towing vehicle's movements.

DESIGNED FOR YOU. BUILT TO LAST.
