

# THE XL PHANTOM: 80 POWER TAIL

## FEATURES

- Foot hole and grab handle for access to upper deck
- 9-foot pop-up ramp from deck to neck
- 25,000 lb tail lifting capacity
- Work light at rear of neck
- 20,000-pound or 30,000-pound winch
- Aluminum control panel

## EXCEPTIONAL TAIL DESIGN

The hydraulic tail is comprised of two sections – an 8-foot 8-inch platform ramp and a 60-inch flip tail. Both hinge points stay clean thanks to lug style hinges. The structural punch plate is made with one piece of steel, so no additional plate is required, and no dirt or debris accumulate.

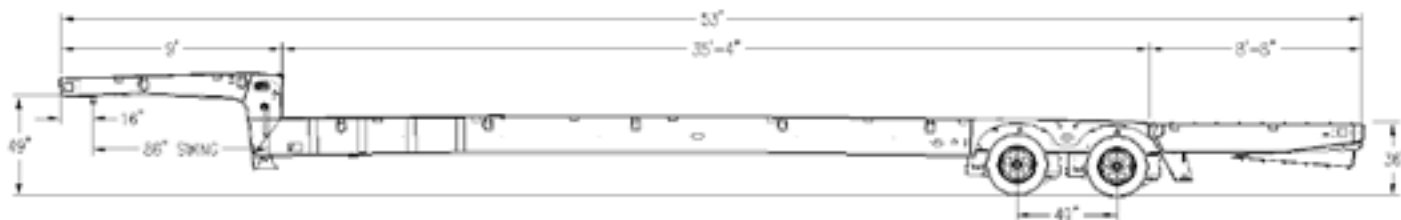

## HANDLES HARD-TO-LOAD EQUIPMENT

With high traction tread plate and a load angle of 10 degrees, the hydraulic tail is equipped to easily handle hard-to-load equipment such as manlifts, rollers, forklifts and paving equipment. The tail features a lifting capacity of 25,000 pounds for loads centered on the main platform.
